COMPANY OVERVIEW

Elucidate, LLC is a verified Service-Disabled Veteran-Owned Small Business (SDVOSB) specializing in elite Enterprise Risk Management (ERM), ServiceNow Integrated Risk Management (IRM) implementation, and secure Azure cloud analytics infrastructure. Led by a Top-Secret cleared founder with over 20 years of global interagency program delivery across the Department of Defense (DoD) and USAID, Elucidate bridges the critical gap between executive budget governance, complex regulatory frameworks, and advanced technical automation. We assist federal agencies, defense integrators, and state authorities in eliminating compliance blind spots and accelerating operational resilience.

CORE CAPABILITIES

• ServiceNow IRM & GRC Modernization

Architect, configure, and rapidly deploy ServiceNow IRM modules to centralize corporate policy, control frameworks, risk registers, and compliance mapping. Specialized in engineering automated evidence collection pipelines to accelerate continuous authority to operate (cATO) pathways.

• AI Governance & Azure Cloud Infrastructure (OMB M-24-10 Alignment)

Design and build secure Azure data lakes, MLOps pipelines, and model registries optimized for federal compliance. Deliver operational frameworks directly aligned with OMB M-24-10, ensuring transparent model governance, automated risk inventories, and auditable data ingestion pipelines.

- **Enterprise Risk Management (ERM) & Corporate Governance**

Establish enterprise-wide risk taxonomies, risk appetite frameworks, and executive dashboards aligned with OMB Circular A-123 and state-level standards. Align fiscal controls, IT telemetry, and mission objectives into unified governance models.

- **Cyber Resilience, Zero Trust Advisory, & IT Audit Readiness**

Author internal control guidance, construct control remediation roadmaps, and architect Zero Trust data alignment models. Leverage KQL analytics, Azure Monitor, and Log Analytics to automate compliance reporting and eliminate audit vulnerabilities.

FEDERAL & STATE DIFFERENTIATORS

- **Elite Leadership & High-Trust Clearance:** 20+ years of federal program management directing complex, multi-country financial and operational missions for USAID and DoD. Founder holds an active Top-Secret clearance.

- **Dual-Socioeconomic Capture:** Certified SBA SDVOSB (Federal) and NYS SDVOB (State), offering a friction-free mechanism for prime contractors to meet demanding statutory procurement goals.

- **Technical Execution + Strategic Vision:** Possesses a highly specialized Microsoft Software and Systems Academy (MSSA) pedigree. Hands-on fluency in Azure infrastructure, PowerShell automation, Python data pipelines, and ServiceNow platform engineering.

PAST PERFORMANCE HIGHLIGHTS

- **ServiceNow Financial Risk Assessment Platform**

Led the technical design and configuration of a ServiceNow IRM solution integrating federal fiscal standards. Safeguarded multi-million dollar agency portfolios and drastically improved control traceability for senior leadership.

- **Regional Financial Control & Data Modernization (USAID)**

Directed massive financial system modernizations across multi-country missions. Delivered automated data analytics, predictive forecasting, and compliance reporting tools supporting joint strategic objectives.

- **Civil-Military & Interagency Data Alignment (DoD / Interagency)**

Architected secure interagency data sharing and compliance frameworks, significantly enhancing operational readiness and situational awareness across disparate networks.

RAPID ENGAGEMENT VEHICLES & PRICING

- **Agile Statement of Work Models:** 90-Day ServiceNow IRM Accelerators, 12-Week OMB M-24-10 AI Governance POCs, Fixed-Price ERM Modernization Sprints, and fractional GRC Program Leadership.

- **Mobilization Capabilities:** Lean overhead structure allowing for rapid resource scale-up through a trusted cleared contractor network. Pricing matrices available via T&M or Fixed-Price Task Orders.
